

Three mobile myths **BUSTED**

“I need to pay for exorbitant wireless data service.”

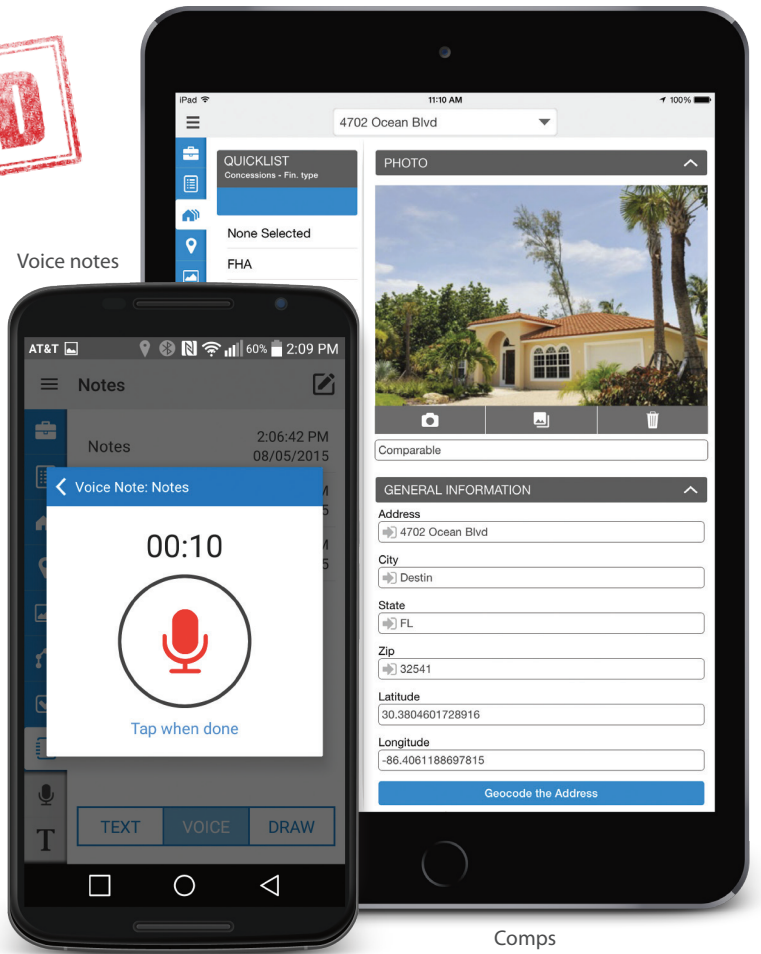

TOTAL for Mobile lets you work regardless of data connection. You can start reports in the field or work on a report you synced from your desktop at the office. You even have access to your templates so you won’t have to start from scratch. Take photos, fill in data, sketch, and more even in the most remote locations. When you’re done, just sync back to your computer from your home’s Wi-Fi for free.

“I’ll still need paper for comp data and extra notes.”

With TOTAL for Mobile you can verify and update comp data, take photos, and even geocode the address on site. Think of something you want to note but doesn’t fit in the report? You can take freeform notes and drawings and make voice recordings on the fly. They flow into your Digital Workfile for reference at the office. You stay 100% paperless!

“I can’t complete a complex sketch on a mobile device.”

We bust this myth hands-on at our Modern Appraiser Roadshows. Together with appraisers, we sketch a complex 5,000+ sq. ft. property with angles, curves, interior walls, cut-out areas, open-to-below, symbols, labels, and more. It’s all possible in TOTAL for Mobile’s sketcher using your fingertips to tap and swipe.

Boost accuracy, reduce paper, and save time on appraisals

*“My associate and I use two iPads with both on TOTAL for Mobile. When we ‘attack’ a house, measure, and do the pics, **we have cut the time down from over an hour per house to about 30 minutes.**”*

— Terry McDaniel, Across Texas Appraisals

<#Name#>, you’re not using TOTAL for Mobile?

Your competitors are much faster than you!

What’s holding you back?

Inside: 3 mobile appraising myths busted!

"You will save 30 minutes or more per report... *minimum!*"

If you're not mobile yet, it's not your fault! Unfortunately, other vendors haven't equipped you with seamless, free, made-for-mobile solutions. We began making the mobile investment in 1992 because the productivity boost to appraisers is priceless.

Unlike the other guys, our mobile apps are built in-house to work seamlessly with the latest devices and TOTAL. **All your data flows into**

TOTAL. No more error-prone data entry or time wasted resketching!

That also means they're backed by our stellar phone support.

Plus, TOTAL for Mobile is completely free! There are no fees in the app store or to sync back-and-forth with your desktop.

Download it today on your phone or tablet to give it a spin.

"Biggest leap in productivity since the PDF writer. Use it as a clipboard (not a full-blown report writer) and you will save 30 minutes per report... minimum!"

— Robert Abbott, The Appraisal Firm

Works with DISTO laser measurers!

One-and-done accurate sketches
Catch mistakes faster and avoid return trips with TOTAL for Mobile sketching. Best of all, you'll save the most time by not needing to redraw your sketch on your desktop.

Fill out forms quickly without typing
Create QuickLists of common responses for every field. Then, just tap through the choices as you go from room-to-room. Need more? Voice-to-text lets you dictate to your device without typing.

All your photo needs met in one app
Stop juggling cameras and sifting through hundreds of photos. Use your device's camera to take unlimited photos within TOTAL for Mobile. Simply label the photos however you like and they're automatically added to pages in your report. It's easy to make changes and rearrange too.
